### WOMAN'S DEPARTMENT.

A speech was made at Columbia, S. C., advocating woman suffrage, claiming that by giving them the right to vote with a property qualifications the white people could carry the elections by fair and honest methods and by no other means could they do it.

Mrs. Lauren Luak has assumed the duties of her new position in the office of Governor Morrill.

Mrs. Ormiston Chant the leader of the "Slum Movement," in England is in N. Y. City.

The woman's club of Denver, is progressing rapidly in its efforts to erect the new building, which will also be a home for the woman's christian association.

Mrs. Foltz the successful woman lawyer of San Francisco, will practice in New York.

#### GLEANINGS.

Mrs. Romney an American woman, invented a dinner pail for working men that will keep food warm for ten or twelve hours.

The Jewish women of Denver, have a club, object to promote the study of Jewish history, and to bring into closer relationship women of all nations.

The largest fee ever given to a woman attorney was given to Miss Ella Knowles of Montana, for effecting a settlement in an important lawsuit, fee ten thousand dollars.

Lady Somerset is an indefatigable worker, as Miss Willard. During the year of 1894, she held 115 meetings, 27 conferences, travelled over 8,000 miles and spoke in twenty counties to about 20,000 people.

Miss Ida Platt was the first colored woman to receive a license to practice law at the bar of Ill.

There is too much space devoted to prize fights in the late newspapers, sometimes four or five columns, all written out in the best style and telling every minute detail, while not one third that space is given to reports of religious, temperance or educational gatherings.

Women are preferred to men as nurses in hospitals.

The names of 100 women appear on a Louisiana list of persons producing sugar, and receiving bounty thereon.

It was a woman, who won the \$200 prize for the best essay on tariff, Miss Mabel McElheny the writer, the judges were Governor McKinley, Senators Adrich and Hisecock.

Mrs. Everett, the wife of a drayman of New Orleans, is one of the best veterinary surgeons in that city.

All the members of the school board in Tiverton, R. I., are women; and the superintendent says the schools of that town are the best conducted in the state.

Of all the clubs formed for the good of society, the most original and unique is a club for the suppression of scandal, formed at Insterbury, East Russia. To bad every town hadn't a like society, its purity would certainly be increased.

Why is it so many business men pick up their newspaper scan the market reports partly read the foreign news and then throw the paper down and quite often never even take it from the post-office.

In the woman's column of 1892, is a letter from Virginia D. Young dated Sept. 27, 1892, Fairfax, S. C., telling of her summer sojourn there and speaking on woman's suffrage at the Waynesville court house, how with fear and trembling she under took the task, because the W. C. T. U. had

met with such a cool reception and suffrage, or "the women who want to vote," were at a still greater discount, but she bravely took the stand and talked to them and they gave her their fullest attention although not in favor of the cause, they afterwards complimented her speech. What a difference of opinion in three years time.

In listening to a discussion between two men of a recent lawsuit, one of them made the remark, that liquor was the cause of the trouble, the other man said it was not, the first one again said, it was; that the man on trial was peaceable enough until he got to much "liquor aboard," and then he wanted to smash things, and he followed out his drunken inclinations and proceeded to smash things, hence the trouble in court, now the man who sold that "smasher," intoxicating liquors did as much injury as the man did who drank the liquor and injured other people's property. But the law does not seem to take hold of him in so severe a manner or confiscate his property as being detrimental or injurious to anyone, if there is such a law it is certainly not enforced as much as it should be. Blackstone, says: "Common law declares no man has a right to use his property to the injury of another, and the consent of the party injured is no mitigation of the offence," no man can sell alcoholic beverages without injury to those who drink it, therefore common law gives no man a right to sell such liquors.

"If the ladies are going to neglect cooking then I am not in favor of suffrage."

The above remark leads us to say that we wish to inform the men readers, that they need have no fears that the ladies will neglect to cook or even forget how. There never was so many schools or classes both public and private as at the present time for the purpose of teaching thoroughly this one great benefit to mankind, viz, (to cook and properly prepare food), we were a nation of dyspeptics or nearly so until the new woman came out in all her pride of the wholesomeness and healthfulness of her dishes, it is the aim of every woman and young lady now days to be considered a good cook, and there is also a little secret why they would under no consideration neglect this one important item (cooking) but they do not propose to tell it.

—The Rocky Mountain Weekly

News is one of the most popular papers of the West. It is especially devoted to the cause of silver. Able fearless and conscientious, it stands up for the producers of the country with a vigor and earnestness that is refreshing and encouraging. It is the farmer's favorite paper. The Herald and the Weekly News \$1.80.

The Weekly Kansas City Star

Addresses the farmer as a business man and a citizen. Doesn't tell him how to farm, but how to sell, and where and when, and keeps a vigilant eye upon
